

# Ensure Compliance with the General Data Protection Regulation

# #GDPR DATA PROTECTION MANAGEMENT

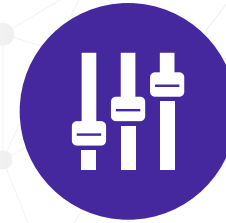

## Quidgest can help you comply with the new European General Data Protection Regulation 2016/679

The General Data Protection Regulation (EU) 2016/679, of the European Parliament and of the Council was adopted in April 2016 and defines the new legal regime of data protection, in particular with regard to the processing of personal data of citizens of the various member states of the European Union. This regulation contains measures that directly affect the activity of organizations, enshrining the “right to be forgotten”, the hiring of a Data Protection Officer (DPO), the obligation to report to the supervisory authority and to data subjects in case of data breach, as well as heavy fines for the infringement of rules set out in the Regulation.

# A Management System for Data Protection

Quidgest has developed a system that allows the organization to structure their data, have a control platform and to ensure the compliance and report to supervisory authority several situations in order to respond to the regulation.

- The solution has four interfaces:** **Data Protection Management** (for the person in charge of data management); **Data Subjects Management** (for the organization to interact with data subjects); **The Data Subject Portal** (for of the data subjects with the organization); **and the Suppliers Portal** (for verification of compliance with suppliers/third parties).

## Basic System Features

# Quidgest

Quidgest is a multinational technology company, of Portuguese origin, created in 1988. A pioneer in the modelling and automatic generation of software, Quidgest creates tools which allow management teams to integrate technological advantages into their organizations.

Quidgest's clients seek innovation and agility in how the information systems they use can allow them to maximize benefits from the process of Digital Transformation. Quidgest systems evolve continuously, respond to complex, urgent or specific needs, and integrate with various technologies and platforms, including Web applications, mobile devices and cloud.

Through the agile Genio platform, Quidgest develops and offers a large portfolio of solutions in 12 different areas of expertise, to support the continuous improvement in the management of companies and public institutions, all over the world.

With companies already incorporated in Portugal, Germany, Timor-Leste and Mozambique, in addition to partnerships in the UK, Brazil, Poland, El Salvador and Jamaica, Quidgest has invested heavily and successfully in the internationalization of its activities.

Quidgest is an ethical and socially responsible company. Its quality management system is certified according to ISO 9001, its environmental management system is certified by the ISO 14001 standard. Quidgest also has the ISO 27001 certification, the top standard and the international reference for the management of Information security. Among other awards and distinctions is an accreditation for PME Excellence and the company is part of COTEC's innovative SME network.
